

PROVISIONS FOR ATHLETIC FIRST AID EMERGENCY CARE

Provisions for athletic first aid emergency care will be provided for all students participating in home athletic practices and contests.

- A. All coaches and intramural instructors as a condition of employment must be certified as having completed a CPR and HIV spills course. All courses must be approved by the school physician and Superintendent. A first aid course will be completed before or during the first year of employment.**
- B. Provision for immediate communication with local ambulance service will be present at all practices and contests.**
- C. An emergency first aid kit, approved by the school physician, will be immediately available at all practices and contests.**
- D. A physician or medical paraprofessional, approved by the school physician, will be present or on call at home contests in all interscholastic sports.**
